2017

Genre : Reality / Gameshow

Duration : 60'

**Do you remember your loved one's back shot?**  
**This is a game show to test bond of love!**

## First Stage ~Two Letters~

In the beginning of the show the loved one will read two letters to the challenger sitting with their back towards him/her and three other people. Both letters include episodes about their relationship, but one of them has fake facts. The challenger must answer which letter is genuine. If the answer is correct, the challenger's seat will move towards the four people, but if it's incorrect the distance becomes farther.

## Final Stage ~Back shot~

Challengers must find their loved one from the backs of four people. It may sound easy, but the distance between the two, and the pressure of choosing the wrong person makes the game difficult. If the challenger chooses their loved one they will win a prize, but if they choose incorrectly, the bond of love will be broken.

## Human Drama
